| 5 | <p><u>CORONER'S CONCERNS</u></p> <p>During the course of the inquest the evidence revealed matters giving rise to concern. It became apparent, from the evidence, that none of the healthcare staff who dealt with Mr Ajakaiye at HMP Doncaster, had, prior to November 2010, any practical experience of dealing with a patient suffering from malaria and that there was a lack of knowledge and understanding of the signs and symptoms of malaria and of tropical diseases generally in circumstances where, in an era of increased foreign travel and inward migration, the incidence of malaria is likely to increase.</p> |

In my opinion there is a risk that future deaths will occur unless action is taken. In the circumstances it is my statutory duty to report to you.</p> <p>The MATTERS OF CONCERN are as follows. –</p> <p>1. When Mr Ajakaiye arrived at HMP Doncaster on 15th November 2010 it appears that his medical records from Heathrow Airport Police Station and Lawcroft House Police Station did not accompany him. The doctor who saw Mr Ajakaiye, on 16th November 2010, stated, in her evidence, that it would have assisted her in her diagnosis had she had those medical records available to her at that appointment. The court heard that, whilst the medical records from previous custodial establishments sometimes accompanied the Prisoner Escort Records, it was not infrequently the case that they did not.</p> <p>2. It became apparent, from the evidence, that none of the healthcare staff who dealt with Mr Ajakaiye at HMP Doncaster, had, prior to November 2010, any practical experience of dealing with a patient suffering from malaria and that there was a lack of knowledge and understanding of the signs and symptoms of malaria and of tropical diseases generally in circumstances where, in an era of increased foreign travel and inward migration, the incidence of malaria is likely to increase.</p> |
