These supplements were in the form of tablets, tea and body cream. It is not clear if the inflammatory response was to one of these supplements or to a combination of them. CORONER'S CONCERNS During the course of the inquest the evidence revealed matters giving rise to concern. In my opinion						

The MATTERS OF CONCERN are as follows. -

The medical opinion at the inquest was that Linda Baranowski died as a result of ingesting or applying one, or a combination, of the following:

- T5 diet strongest fat burner legal 30 capsules slimming weight loss pills detox
- Slimming Chinese Green Tea weight loss detox burn fat herbal 30 bags
- Hot Anti-Cellulite Balo slimming cream gel, chill 85ml helps burn fast
- Himalayan Premium Green Tea pyramid bags

Whilst I acknowledge that the precise effect of these supplements is not known, the role of the hot slimming cream in particular was highlighted by the consultant at the Specialist Burns Centre as being likely to have contributed to the fatal inflammatory response. It is my understanding that these products, and many products of a similar nature, are still on sale and widely available.

6	ACTION SHOULD BE TAKEN					
	In my opinion action should be taken to prevent future deaths and I believe you have the power to take such action.					
7	YOUR RESPONSE					
	You are under a duty to respond to this report within 56 days of the date of this report, namely by the 17 th August 2017. I, the coroner, may extend the period.					
	Your response must contain details of action taken or proposed to be taken, setting out the timetable for action. Otherwise you must explain why no action is proposed.					
8	COPIES and PUBLICATION					
	I have sent a copy of my report to the Chief Coroner and to the next of kin, Coroner may publish either or both in a complete or redacted or summary form. He may send a copy of this report to any person who he believes may find it useful or of interest. You may make representations to me, the coroner, at the time of your response, about the release or the publication of your response by the Chief Coroner.
